- Consent – is an affirmative consent standard in the determination of whether consent was given by both parties to sexual activity. Affirmative consent mean affirmative, conscious, and voluntary agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that he or she has the affirmative consent of the other or others to engage in sexual activity. Lack of protest, resistance, or silence does not mean consent. Affirmative consent must be ongoing throughout a sexual activity and can be revoked at any time. The existence of a dating relationship between the persons involved, or the fact of past sexual relations between them, should never by itself be assumed to be an indicator of consent.

California Education Code § 67386

CAMPUS SAFETY

Consent – “Consent” means intelligent, knowing, and voluntary consent and does not include coerced submission. “Consent” shall not be deemed or construed to mean the failure by the alleged victim to offer physical resistance to the offender.

Florida Statute § 794.011

Consent is not specifically defined under Georgia law.

Consent - "Consent" means assent in fact, whether express or apparent.
